

Home Monitoring & Control System
**Wireless Temperature
Sensor**
HMTS1050

At Home. Away From Home. Stay Informed.

Motorola's Home Monitoring & Control System Wireless Temperature Sensor allows you to monitor temperature levels.

Add this sensor to your Home Monitoring & Control System to be aware of what's happening in, and around, your home even when you're not there. Place this sensor anywhere there's a need to monitor extreme temperatures.

BENEFITS:

Use this Wireless Temperature Sensor...

At Home

- Be aware of drastic temperature changes in locations such as your baby's bedroom, wine cellar or green house

Away From Home*

- Be alerted when a major appliance such as a furnace, refrigerator or freezer malfunctions

FEATURES:

- Manage devices with simple-to-use software*
- Add up to eight sensors to monitor extreme temperature conditions**
- Add devices with the touch of a button
- Wireless connectivity allows for placement virtually anywhere around the home or office
- Triggers cameras to automatically record based on sensor activity
- LED indicator lights when sensor is triggered
- Easy set up and installation

SYSTEM SUPPORT:

- 24/7 online and toll-free technical customer support
- One year limited warranty

WHAT'S INCLUDED:

- Wireless Temperature Sensor
- Temperature probe
- Detachable antenna
- Two AAA batteries
- Mounting hardware
- Quick Start Guide

SYSTEM REQUIREMENTS:

To use this sensor you must have the

- Motorola Home Monitoring & Control System Easy Start Kit

REGULATORY APPROVALS:

- FCC

Home Monitoring & Control System Wireless Temperature Sensor HMTS1050

TECHNICAL SPECIFICATIONS

- Attaches to vertical flat surfaces
- Operates on 2 AAA Alkaline batteries
- LED indicator lights when sensor is triggered
- Discover button

Temperature Measurement	-40° C to 60° C
Typical Range Outdoors	250 feet
Typical Range Indoors	60 feet
Frequency Range	418 – 433MHz
Operating Temperature	-10° C to +40° C (14° F to 104° F)
Outline Dimensions	1.625" W x 3.375" H x 0.5" D
Weight	2.2 oz

WIRELESS TEMPERATURE SENSOR PROGRAMMABLE EVENTS

Customize your system by setting up multiple events to enhance your monitoring capability...

EVENT CHOICES	SELECTABLE ACTION DEVICES	ACTION CHOICES	END RESULT VIEWABLE IN ARCHIVE OR REMOTE NOTIFICATION VIA EMAIL*
High temperature	None	N/A	Temperature above threshold message
High temperature	Any camera	Image capture	Temperature above threshold message with an image capture
High temperature	Any camera	Video capture	Temperature above threshold message with a video capture
Low temperature	None	N/A	Temperature below threshold message
Low temperature	Any camera	Image capture	Temperature below threshold message with an image capture
Low temperature	Any camera	Video capture	Temperature below threshold message with a video capture

N/A = Not Applicable

NOTE: Limit of one high temperature event and one low temperature event per device

MODEL	DESCRIPTION	PRODUCT			OVER PACK
